

TRADEBOT™

Network Engineer

Responsibilities

- Network design and implementation. Specific challenges include interoperability between hardware from multiple niche vendors and complex multicast traffic.
- Design data centers for performance and maintainability. We have several Data Center locations in the US and almost all physical work is done by third-party remote staff.
- Secondary responsibility is support of Linux servers and workstations. Windows administration experience is helpful, but not required.
- Develop processes to automate/monitor/audit the system.
- Evaluate and recommend new technology for possible use.

Requirements

- Bachelor's degree in Information Technology, Computer Science, or a related field.
- Cisco CCIE certification or equivalent experience is preferred.
- Scripting/programming experience, preferably in Python.
- Excellent communication skills, both verbal and written.
- We hire for Aptitude, Character, and Enthusiasm. We are looking for associates who are eager to learn and move up as the firm grows.

Benefits

- **Base salary \$50k to \$150k**, depending on position and experience.
- **Bonus Pool.** Incentive compensation can be highly rewarding. All associates are eligible to participate in our annual discretionary bonus pool. Bonuses are based on trading profits, individual performance and other criteria set by the board. Bonus payouts are not guaranteed.
- Benefits package available to all: including health insurance, paid time-off, IRA match, etc.
- Free lunch. The company provides lunch daily with rotating caterers.

Beating Wall Street from Kansas City

- Tradebot Systems is a proprietary, algorithmic trading firm that specializes in U.S. equities. We are a registered broker-dealer and account for roughly 2 – 6% of all stock trading in America.
- We maintain our competitive advantage through cutting-edge technological innovation and analyzing “big data” to determine when we have a statistical edge.
- Our internally developed, low-latency trading system has been beating Wall Street since 1999. We have around 60 associates and they all work out of our headquarters in Kansas City.

Applicants should email their **resume, including GPA and ACT score** to work@tradebot.com.

If you know someone who may be interested, thank you for passing along this information.
